2026 Spring Revenue Estimating Conference

U.S. VIRGIN ISLANDS — Director of the Office of Management and Budget, Julio A. Rhymer Sr., is pleased to announce the upcoming 2026 Spring Revenue Estimating Conference, to be held at Yacht Haven Grande's Harbor 360 on Friday, March 20, at 9:00 a.m. In addition to in-person attendance, the conference will be available virtually via livestream on the Government House, Office of Management and Budget, and WTJX Facebook pages.

Safeguarding public trust in government institutions remains a key priority of the Bryan–Roach Administration. This commitment is reflected in its ongoing efforts to promote transparency and implement common-sense fiscal controls. During the 2026 Spring Revenue Estimating Conference, leaders from more than a dozen Government of the Virgin Islands revenue-generating agencies will highlight their efforts to deliver critical public services while identifying and addressing potential waste, fraud, and abuse.

Presenters will also offer forward-looking revenue forecasts, providing a clear and candid assessment of the Territory's financial outlook. Attendees can expect to hear the most current and comprehensive economic information vital to leaders and entrepreneurs who contribute to the Virgin Islands' economy. Following the presentations, agency leaders will be available to participate in a brief question-and-answer session. For updates or additional information, visit the Office of Management and Budget website at <https://omb.vi.gov>.

The Bryan–Roach Administration continues to invest in the Territory's people, infrastructure, and future by promoting transparency, stabilizing the economy, restoring trust in government, and ensuring recovery projects are completed efficiently. Learn more about these efforts at <https://transparency.vi.gov>.
